

environment policy

URS Asia Pacific is an industry-leader recognised for integrity, innovation and technical excellence in the fields of engineering and the sciences applied to the earth and its environment.

Consistent with our visions and values we commit to minimising environmental impacts associated with our activities.

To achieve this outcome we will:

- *Apply principles of waste minimisation and responsible resource utilisation to all of our activities;*
- *Incorporate pollution prevention practices into our operating procedures and processes;*
- *Ensure all our people, contractors and subcontractors are made aware of the requirements of this policy;*
- *Comply with all applicable environmental legal requirements and apply responsible standards where legislation and regulations do not exist;*
- *Develop processes that facilitate continual improvement in environmental performance;*
- *Maintain a pro-active leadership role in Environmental Management; and,*
- *Provide the necessary resources and training to ensure the objectives and targets derived from this policy are achieved.*

This policy will be reviewed periodically to ensure that it continues to accurately reflect the scope of our activities.

David Williamson
Managing Director – URS Asia Pacific
